

EOAlgo< EOT >

paradiseo::smp::Scheduler  
< Dummy, boost::numeric  
::interval\_lib::policies >

scheduler

paradiseo::smp::MWModel  
< EOAlgo, EOT, Policy >

```
graph LR; MWModel["paradiseo::smp::MWModel< EOAlgo, EOT, Policy >"] --> EOAlgo["EOAlgo< EOT >"]; MWModel -.->|scheduler| Scheduler["paradiseo::smp::Scheduler< Dummy, boost::numeric::interval_lib::policies >"]
```

The diagram illustrates the relationships between three components. A central box on the right, labeled 'paradiseo::smp::MWModel < EOAlgo, EOT, Policy >', has a solid blue arrow pointing to a box on the top left labeled 'EOAlgo< EOT >'. It also has a dashed purple arrow pointing to a box on the bottom left labeled 'paradiseo::smp::Scheduler < Dummy, boost::numeric::interval\_lib::policies >', with the label 'scheduler' placed above the dashed arrow.
