

Communicable

Thread

Runner

peoEA < EOT >

```
graph BT; peoEA[peoEA < EOT >] --> Runner[Runner]; Runner --> Communicable[Communicable]; Runner --> Thread[Thread];
```

The diagram illustrates a hierarchical structure. At the bottom is a box labeled 'peoEA < EOT >'. An arrow points from this box to a box labeled 'Runner' positioned above it. From the 'Runner' box, two arrows branch out upwards to two separate boxes at the top: 'Communicable' on the left and 'Thread' on the right.
